RE: ADDITIONAL PAYROLL PROGRAMS FOR FEBRUARY 2016

We are sending the additional payroll programs for processing the salary for the month of Feb-2016. The payroll programs for extraction of data for HRMS module are also revised and the same are enclosed.

Kindly copy these files to "prg" directory on the new partition (i.e., /pro116/prg) for processing the salary for Feb-2016.

M0 input for NPS employees :-

Kindly refer to our earlier instruction dated 16/02/2016 about the M0 input (field code 142) for employees recruited between 01/01/2004 and 31/03/2010.

It is observed that, if we change the option from NPS to regular pension scheme, the present tax calculation program is not giving exemption under Sec.80 C for the NPS deduction amount (deducted during April 2015 to Jan-2016).

You may therefore, **defer this M0 input till further advices.**
